

Dear Sir/ Madam,

In today's highly competitive world, the only way to survive is to *stay ahead*. Successful organizations are the ones who embrace this "Mantra" and blend seamlessly into the ever-changing business environment.

ADCC Infocad Ltd has, over the years, evolved from being a small CAD training institute to a highly successful and reputed technology solution provider. We can proudly claim to be one of the leading geospatial technology players in India. Over time, we have consistently reinvented our solution offerings to clients whilst adapting to changing business needs with quick turnaround times. This has provided us a very stable business platform for the coming years.

It is now time that we build on this rich and diverse portfolio and take it to the next level of growth. A time to showcase our robust technology solutions spectrum. A time to convey our intent in addressing new domains. A time to project ourselves as a World Class IT organization.

As a first step, we have taken an initiative to rebrand ourselves. A brand, which will convey our goal to all stakeholders with clarity. A brand that will ensure benefits to every stakeholder. Towards this, after extensive deliberations, we have arrived at a new identity for **ADCC**:

Why Ceinsys Tech Ltd?

Well, we wanted to keep in touch with our roots; which lie in **Central India**. We use **Systems** to address customer needs. Our approach is thru **Technology Solutions**. And, of course, we are a Public Limited (**Ltd**) company. Put all these together; and you have Ceinsys Tech Ltd.

Why the colors?

We have chosen the color blue as it represents the vastness of the oceans and the color of the all-pervasive sky; both symbolizing our wide range of solutions. The color orange represents the color of the rising sun symbolizing a new dawn for the company.

May we also add here that the change of company name is, merely the first step in our quest to achieve the set goal. We have repositioned our solutions spectrum into three broad business segments – Government, Infrastructure, Defence & Security; and shall address them by providing a combination of Geospatial, Engineering & IT solutions.

Having embarked on this ambitious growth path, we seek blessings and support from all our stakeholders, including, our Investors, our Customers, our Vendors, our Partners and of course, our Employees. We welcome you to Ceinsys Tech Ltd. As proud Ceinsians, we look forward to your continued support; with a promise to serve you better.

Yours Truly,

CA Amit Somani
Managing Director – Ceinsys Tech Ltd
